

Discussion: Everything in the present is transformed | The artistic inhabitation of space

September 13 at 17:30, Minerva Hotel, Platres.

As part of the exhibition Newcomers, visual artist Maria Loizidou will be in conversation with Elina Kountouri (director of NEON and curator) and Alexandros Diogenous (founder of Pylon Art & Culture).

The discussion focuses on the transformation of a space and aims to highlight how our understanding of an artwork is enriched in proximity to its surroundings: a universe of accumulated experiences from practices of co-evolution, which seek to shape new relationships and forms of cohabitation in places with the distinctive quality of slipping back into themselves.

The exhibition Newcomers will be open to the public from 11:00 a.m.
